

FIND YOUR BRACELET SIZE

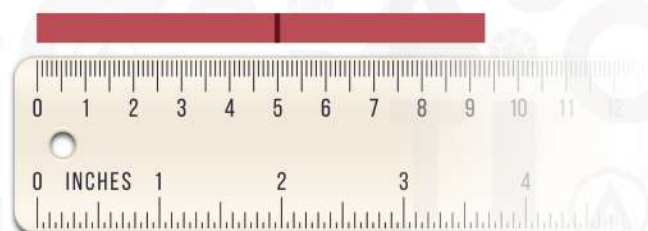

STEP 1 :

Take a piece of a string/tape and wrap it around the base of your wrist. To ensure a comfortable bracelet fit, we recommend measuring the thickest part of the wrist, usually the wrist joint. Hold the string in place and mark the meeting point for both ends.

STEP 2 :

Measure the marked length i.e. inside circumference with a ruler and refer the chart below to find your Bracelet size.

Wrist Size (cm)	15.24	16.51	17.78	19.05	20.32	21.59	22.86
Bracelet Size (in)	6	6.5	7	7.5	8	8.5	9
